IMPORTANT HEALTH WARNING ABOUT PLAYING VIDEO GAMES

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms–children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions:

- Sit farther from the television screen.
- Use a smaller television screen.
- Play in a well-lit room.
- Do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing

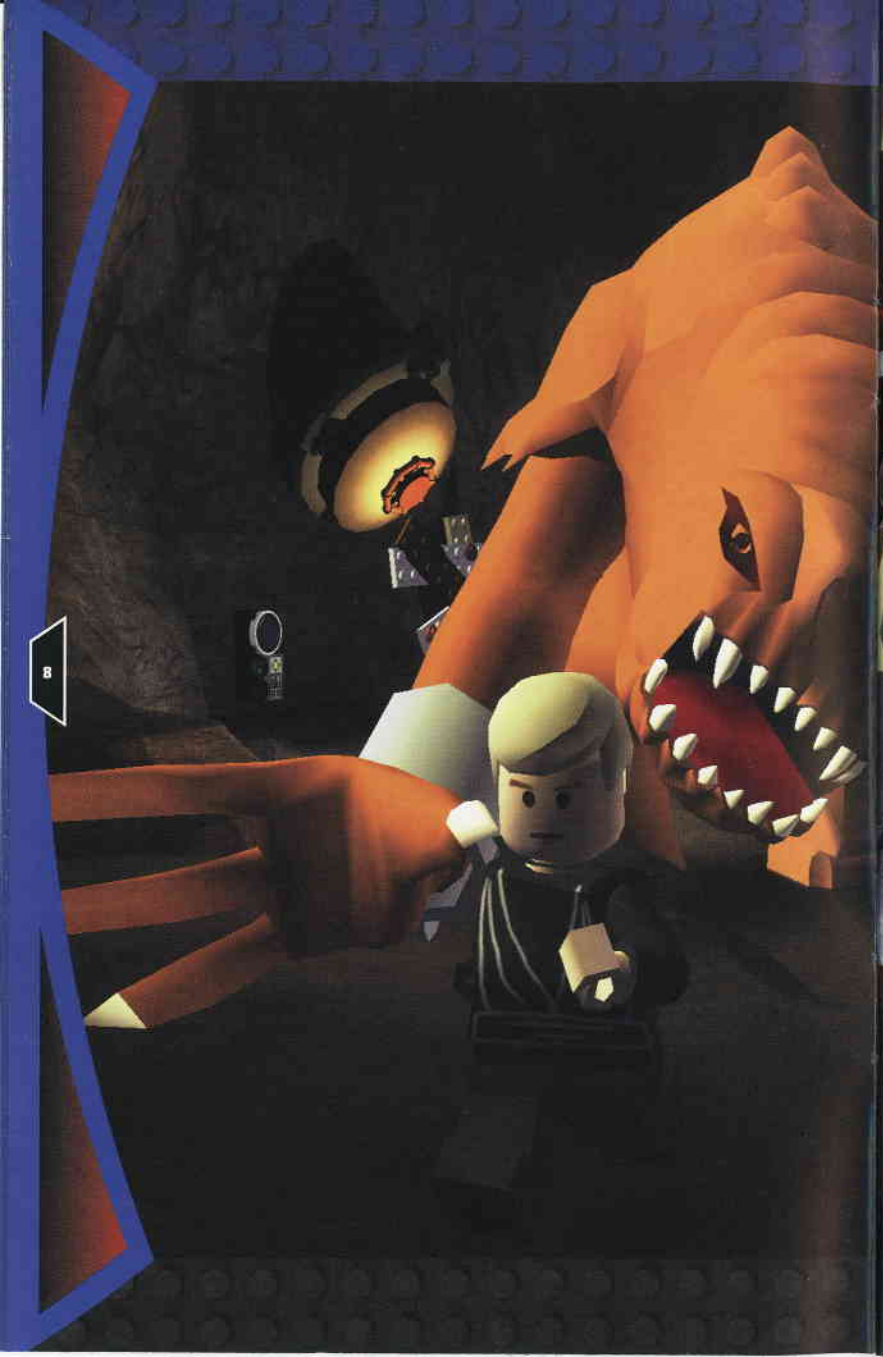
GREETINGS!

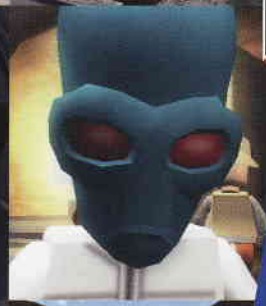
I am C-3PO, human-cyborg relations. Hopefully you don't expect me to defend you against hostiles. I am after all only a protocol droid, and not programmed to engage in such harrowing activities. I'm not invincible! But I can offer some assistance by being your guide.

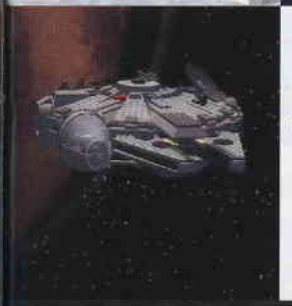
I have taken spotless notes during my journeys, most of which I think will come in handy on your very own adventures. Consider them tips and general observations on how I experienced the galaxy during some rather troubling situations—the LEGO *Star Wars* universe can be a frightfully dangerous place, you know. However, I take no responsibility if any of my "suggestions" result in loss of plastic limb. I've included many suggestions made by my dear friend R2-D2 (sometimes against my better judgment), so it would only seem fair to address all grievances care of him.

Should you find this guide useful, though, please forward all flattery to Lars Moisture Farm, Attn. C-3PO, Tatooine, Arkanis Sector, Outer Rim.

—SINCERELY, C-3PO







WELCOME TO THE MOS EISLEY CANTINA

Your journey begins in a rather dubious (despite Han Solo's opinions to the contrary) watering hole, the Mos Eisley Cantina. However, I must insist that you purchase your own drinks – droids are not made of credits, you know!

Starting off, you'll be in control of the lovely Princess Leia along with her companion Captain Antilles, who seems to follow her almost anywhere – and he doesn't even break a sweat. Go ahead, tease the eager fellow by touring him around the Cantina.

THE BAR

The infamous Mos Eisley Cantina is renowned for its extensive menu of galactic delicacies. Simply wander over to the main bar in the center of the room and press A to select your poison:

HINTS – Especially good for weary travelers with a taste for gameplay tips.

CHARACTERS – Looking for a different flavor? As you journey, bonus characters will become available here.

EXTRAS – Those with a hankering for exotic, yet expensive, seasonings will find these gameplay "cheats" very useful.

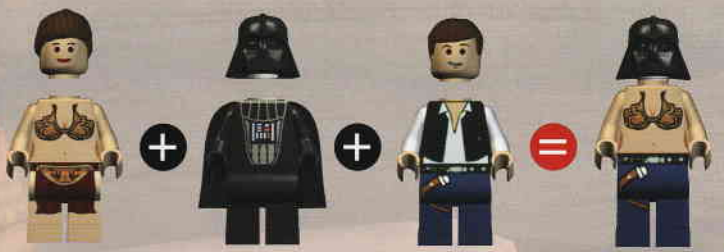
CODES – Being the best in the galaxy even means accepting custom orders. Enter your secret codes here.

GOLD BRICKS – For those looking for a shortcut, you can purchase Gold Bricks here.

STORY CLIPS – Sit back, relax and enjoy cutscenes you have unlocked.

CHARACTER CUSTOMIZER

Nearby, you may also notice dual bacta tanks with two figures floating eerily in them. Creepy, indeed, but don't be alarmed – this is where you can completely customize your characters. Early in the game, there aren't many options, but as you finish each chapter you'll unlock more customization parts. By pressing Up/Down, you can select what portion of the body you'd like to modify – Hat/Hair/Helmet, Face, Cape, Body, Arms, Hands, Weapon, Belt, and Legs. Then toggle Left/Right to change that particular feature. Do it yourself – or randomize the process by pressing the X button! To swap between custom characters, press the A button or save and exit by pressing the B button. You can even edit your character's name by pressing the Y button. For instance: Princess Darth Solo awaits below!



EPISODES

If you're looking to get right into the thick of things, I suggest jogging over to one of the episode lounge areas, very cleverly named Episode IV: *A New Hope*, Episode V: *The Empire Strikes Back*, and Episode VI: *Return of the Jedi*. Each door opens to a different chapter – all of which should seem oddly familiar to those well-traveled. Once you complete the first chapter, Secret Plans, subsequent missions will be unlocked, allowing you to move, in parallel, between all three episodes.

GAMEPLAY MODES

After entering a chapter in the Cantina, you'll be forced to make an extraordinarily difficult choice between two gameplay options. Don't worry, I'll hold your hand:

STORY

The developers of this wonderful game have spared no expense to prepare a Story Mode that follows the events of the original *Star Wars* Trilogy almost exactly. However, you'll only have access to certain characters specific to each scene.

FREE PLAY

For the more adventurous at heart, Free Play Mode allows you to journey back into any unlocked chapter using your choice of characters – and rotate between them at will. While you'll certainly meet some worthy allies during Story Mode, other characters must be purchased at the Mos Eisley Cantina bar.

The characters under your command at the time of entering the scene will remain for Free Play. However, you can select a different primary character from the character display by moving the blue highlight over that character and pressing the A button. Player 2 can follow your lead with the green highlight.

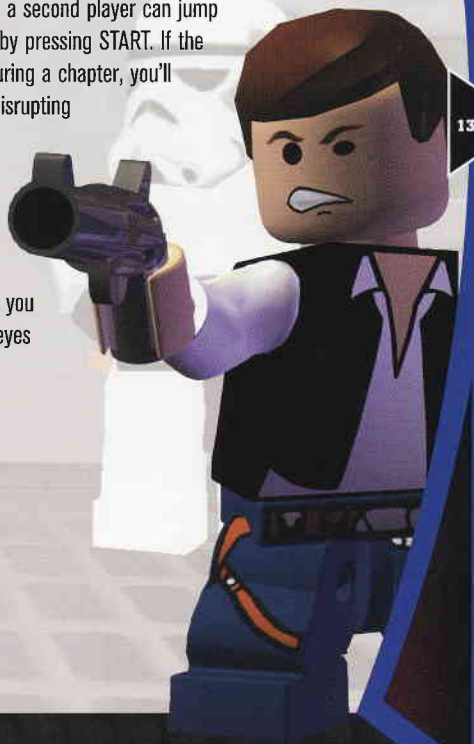
After your primary character is selected, additional team members are automatically picked. This may seem presumptuous, but it's for your own protection, ensuring the broadest range of abilities are at your disposal. While in Free Play Mode, pulling the L or R triggers will let you cycle through your group of characters. Got it? Excellent.

2-PLAYER/CO-OP

To promote socializing amongst gamers, a second player can jump in at any point during the game simply by pressing START. If the second player chooses to drop in/out during a chapter, you'll be able to carry on as normal without disrupting your progress.

BONUS LEVELS

The world of LEGO *Star Wars* II is full of surprises and secrets. There are many doors to be found and opened, as you progress through the game. Keep your eyes peeled and your wits about you!



THE BASICS

Before you go and get broken into tiny, plastic bits, you should know a few more things. Take a good look above – all of this information is crucial, indispensable, and frankly, very important.

1. **HEARTS** – Keep you alive.

2. **LEGO STUDS** – Are your currency (see: page 19).

3. **TRUE JEDI STATUS** – Collect enough LEGO Studs during each chapter, and you'll attain True Jedi Status. Maintain True Jedi Status for every chapter to unlock this game's innermost secret.

Force Move..... Hold B button while facing highlighted object

Force Push ..... Press and hold B button when an enemy is in range

Jedi Mind Trick ... Jedi pranksters can distract enemies by pressing the B button while facing them

BUILDING

Build ..... Hold B button while facing pile of LEGO bricks

GRAPPLING

Anyone equipped with a blaster or bow-caster can make use of this secondary fire ability to launch themselves upwards.

Grappling Gun ... Stand in or behind a glowing grapple circle, then press and hold B button

They may be Force-less, but certain Astromech droids like R2-D2 are pre-installed with anti-grav boosters allowing them to hover to places that Jedi just can't go.

Hover .....Press and hold A button, then move as normal

JETPACK

It's rumoured that the fiercest bounty hunter in the galaxy is equipped with a personal rocket pack, along with other destructive special weapons.

ACTIVATING PANELS

Some doors can only be unlocked by certain characters. You'll be prompted with a character icon on the panel so you'll know which one to use.

Activating Panels .....Face panel, then press B button

DISGUISES

Sometimes situations require a little less brute force and a little more stealth, so certain humanoid characters like Luke Skywalker have the ability to disguise themselves as stormtroopers or bounty hunters to sneak past enemies.

COLLECTIBLES

LEGO STUDS

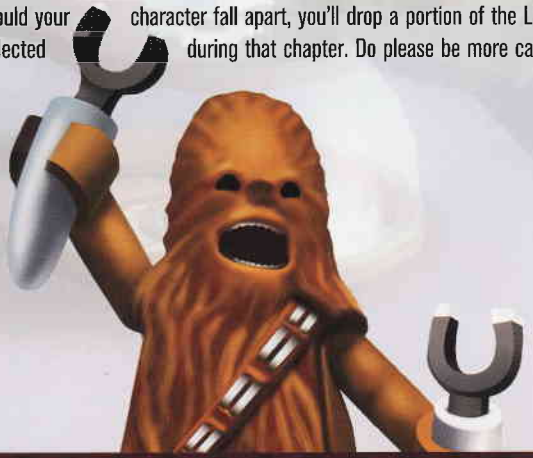
Since credits are easily counterfeited, a new currency called LEGO Studs has been put into place. These little bits of valuable plastic can be earned in a variety of ways – breaking, blasting, slicing, exploding.

At the end of each chapter, your LEGO Studs are banked and can be exchanged at the Mos Eisley Cantina to unlock characters, cheats, and other extras. During 2-Player Mode, LEGO Studs are tallied in the same counter.

LEGO Stud Currency Exchange Rates:

One Silver Stud 10
One Gold Stud 100
One Blue Stud 1,000

Should your character fall apart, you'll drop a portion of the LEGO Studs you collected during that chapter. Do please be more careful next time!



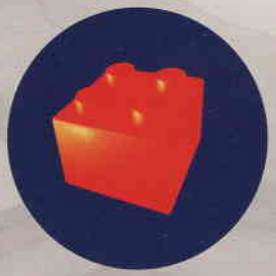
MINI-KIT CANISTERS

The developers of this game have taken great pride in hiding rare, little items called Mini-Kit Canisters in every nook, cranny, and even in the pit of the Sarlacc. They are difficult to find, but if you can locate 10 Mini-Kits in each chapter, you'll be rewarded with immense LEGO Stud wealth and the parts to build an exclusive Star Wars vehicle.

As you foster your collection of vehicles, you can visit them by wandering out to the Mos Eisley Cantina's parking lot. However, some questionable Rodians have been known to loiter outside – so use your manners.

POWER BRICKS

Hidden somewhere in each chapter is a super-secret red Power Brick. If you can find one, you'll gain the option to purchase a new Extra feature from the Cantina barman, and power up your abilities.



GOLD BRICKS

You can obtain Gold Bricks by either completeing a level in Freeplay, Story mode, obtaining True Jedi Status in both modes, and collecting all the mini-kits. You can also purchase Gold Bricks at the Cantina. These bricks earn you access to bonus levels.

PAUSING YOUR PROGRESS

By pressing START, you can pause any near-death situation and view your progress, seeing how many Mini-Kit Canisters you've collected and how close you are to being the envy of all your friends by attaining True Jedi Status for that particular chapter. Or you can merely ignore the conflict at hand and toggle through:

RESUME. . . . . To resume game in progress.

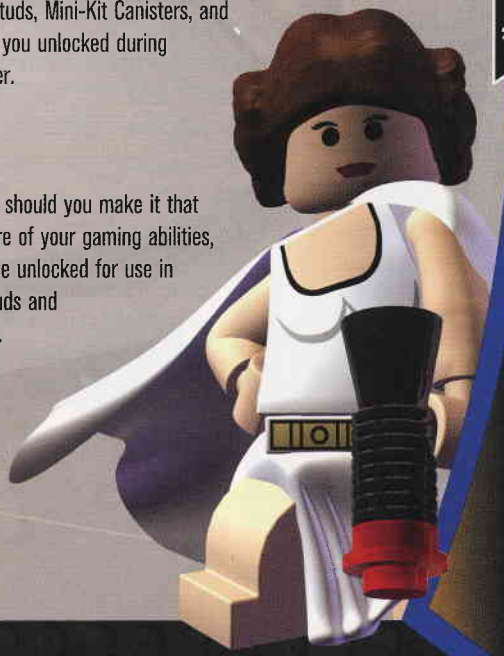
OPTIONS . . . . . To adjust sound effects and/or music volume, or turn on/off Auto Save functionality.

EXTRAS . . . . . To access the wonderful extras!

MOS EISLEY CANTINA . . . To escape to the Mos Eisley Cantina, thus losing all LEGO Studs, Mini-Kit Canisters, and characters you unlocked during that chapter.

END OF CHAPTERS

At the conclusion of each chapter, should you make it that far – you'll be treated to a measure of your gaming abilities, recounting all the characters you've unlocked for use in Free Play Mode, and the LEGO Studs and Mini-Kit Canisters you've collected.



SAVING

Listen up – this is more important than remembering my manufacturing day! After completing a chapter, customizing a character, or purchasing something from the Mos Eisley Catina, you'll be asked to select a save game slot. Use the D- pad ◄ ► to select "Save Game", then press the A button to confirm. You will need to be signed into a gamer profile to save. You can do this by pressing the Xbox Guide button on your controller.

The very responsible Yoda inside your Xbox will automatically enable the Autosave feature whenever you save or load. This is recommended. Highly. Droids can't lie!

LOADING A SAVED GAME

FROM THE OPENING SCREEN

Make sure you are signed into the profile that you saved your game with. Press the D-pad ▼▲ to select "Load Game," and press the A button. Choose the location you want to load from, then press ◄ ► to select a save game slot, then press the A button to load the selected game.

DURING GAMEPLAY

To see your saved games from the Mos Eisley Cantina, press START to pause the game and access the in-game "Pause" menu. Select "Quit" to exit the game, and then choose load game from the startup menu.

CHARACTER CHECKLIST

To properly complete this game, one must unlock every single character. Otherwise, I'd seriously reconsider calling yourself a "gamer" – it's just not fair to the truly dedicated humanoids out there. Also, it has to be said that not all unlockable characters are listed – we can't give away everything!
